“Vi är här”  
means that we are here.  
We are sharing a place.  
We are walking on the island.

An island for us.

## Månenleden

PATH OF MOON.

The island observes in the vigil  
as it weaves reflections in the water.  
Enchantress that shapes the cycle  
who with letters of the time  
talks about the future.  
Beating light.  
Many songs tell about her  
but only has attention  
for the pealing of the bells  
to listen to the farewell who is going.  
Be praised,  
Mother of the stars.

## Stenenleden

PATH OF STONE.

The island is rock.  
The island as a citadel  
that treasures the thoughts of our world  
for being remembered and venerated.  
Rules from the top  
waiting for new travellers.  
Site of meeting.  
Trace of routes.  
Perpetual. Defiant.  
knowing that the fire  
never ends it.  
Be praised,  
Path of journey.

## Solenleden

PATH OF SUN.

The island, blinded by light that warms up,  
smiles for meeting a friend and fellow.  
Proud. Loading for the winter.  
Leaped. Waiting for the spring.  
Behind the fog,  
reminds that it never abandons us.  
Every day is born to die  
dying in vivid colors the island  
seeking the meeting with her.  
Be praised,  
welcomed friend.

## Vattenleden

PATH OF WATER

The island lays on chords  
that sing the journey of those who did not  
come back.  
Sedentary boats wait for being sailed  
in a new trip on the paths of water.  
Limit for who walks,  
Balsam for who believes,  
Border for who flees,  
Point for who dreams.  
Drink what unites rather than separates them.  
Performer of miracles.  
Relief to the traveller.  
Be praised,  
Painter of the greens of the island.
